Shortage Of Silver Coins in Mexico City Is Becoming Acute

MEXICO CITY, Feb 11 Infinite anthogance to every resident and an appreciable loss to business houses have resulted from the virtual disappearance from circulation of silver coins.

These comprise half-peso pieces and those of 29 and 16 centaves. The constantly increasing price of silver has given speculators a chance to make enormous profits by cornering the silver coins for sale as buillon.

When the shortage became noticeable, the capital press printed stories on the disappearance of the coins. An immediate rush to hoard what coins remained began. Persons without change are unable to make small purchases, as many merchants will decline to sell if they are forced to give silver change for a 10 or 29-peso gold piece. The government, to relieve the sit-

MEXICO CITY, Feb. 14.—The German colony in Mexico City recently held a meeting at which was discussed the problem of securing some sort of guarantees from the present German government for the 10,000,000 marks which were tent to the recalled German minister here. H. von Eckhardt, during the war, for propaganda and other purposes. The lenders at present have nothing more than "scraps of paper", issued by the former minister. Profit Taking Brings Downturns in Corn Market.

> HICAGO, Feb. 14.-Profit-taking by bolders brought about dewnturns to-day in the corn market. Opening prices, which renged from 5c of to 5c gain, with May \$1 22% to \$1.23% and July \$1.19 to \$1.20%, were followed by a ma-terial setback all around. Oats declined with corn. Provisions quickly jumped to the naximum limit.

BRITONS LIE TO

Then After Armistice Reveal True Ages to Get Discharged.

LONDON, Feb. 14 (Correspondence of the Associated Press.)—Incidents of men stretching the truth considerably to get into the Birlish army when England needed every man and then resorting virtually to mutiny to get out after the armistice was signed have been shown at Folkestone during investigation of the first demobilisation demonstrations there. vestigation of the first demobilisation demonstrations there.

After several hundred men had declined to embark for France at the end of the Christmas leave the military authorities began investigating each case separately.

One man who might be judged from 38 to 50 years of age appeaged before the examining officers.

On what ground do you think you should be released now? he was asked. "I'm more than 41 years of age." he said, relying upon the rule that men of that age or more should be released as soon as possible.

"I gave that as my age to get in, sir. I am 50 years old now."
"You will have to prove that," came a quick reply, whereupon he turned to a middle-aged woman spectator, his wife, who had antichated the situation and produced a birth certificate. He will be released at once and the method by which he volunteered will be conveniently forgotten.

During the last year of the war no miners were allowed to join the army. Their ranks already had been depleted until barely enough coal was being produced. Another demonstrator claimed he should be released because he was a miner. His record showed he represented himself as a fishmonger in order to join the colors. When he proves he is a miner he will be released.

WEEKLY FIGURES.

Virginia Caro. Chem. N. Y., N. H. & H.

New Orleans.—In spite of all the talk of shutting down mills and the much advertised labor troubles the spinners were having, the month of January saw the greatest number of spindles turning in this country on racord. The total active spindles of 23,855,472 compares with the previous high record of 32,785,656, made in March of last year, when mills were working night and day on war orders. Without the war orders, they were apparently even busier in January of this year.—Shepard & Gluck.

Prices."

New York.—Facts are slowly crystal-lising to indicate that recent depression and liquidation have seen their worst and a distinct change of sentiment is visible. Trade in cotton textile goods, while at yet not expanding, tentative bids are being made and as all buyers are waiting for the bottom, not a few are likely to be disappointed and miss the markets. We consider following the bear side as dangerous.—Failon.

Chicago.—Some of the locals now figure May corn will touch \$1.30, on this runaway. While heavy short covering has resulted, there has also been much attention from longs. The trade simply turned to the buying side yesterday and offerings at times were a trifle. The economic side of things shows little change. Just how world trade is to be stirred seriously remains a puzzle. Bulls say much corn formerly sold against Argentine purchases has been bought in. An early liberal rise today should be followed by a sharp reaction.—E. W. Wagner & Co. Chicago.—Trade in corn extremely large. LEON BOURGEOIS TO STATE FRENCH VIEWS

PARIS. Feb. 14.—Leon Bourgeols, in giving France's adhesion to the seciety of nations today at the plenary session of the peace conference, will make, it is understood, says a Havas report, certain reservations in the name of the French government, the exact view point of which he will discuss.

It is probable, it is reported, that before President Wilson leaves, the supreme council will desire to elucidate the attitude it will adopt relative to the Prinkipo conference with the representatives of the governments in Russia.
